TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript, Python, C, C++, HTML5, CSS3
Frontend:	React.js, Next.js 14, Angular, React Native, Tailwind CSS, Redux Toolkit, Material UI, ShadCN UI
Backend & Database:	Node.js, Express.js, Django, MongoDB, PostgreSQL, MySQL, Redis, Firebase
DevOps & Cloud:	Docker, Jenkins, AWS, Git, GitHub Actions, Postman, Vercel, Netlify, Render
Core Architecture:	RESTful APIs, Microservices, WebSockets, RAG Pipelines, Agentic AI, JWT Auth

FEATURED SOFTWARE ENGINEERING PROJECTS

Growwise – FinTech Market Analytics SaaS <i>Next.js 14, OpenAI API, Inngest, PostgreSQL, Tailwind CSS</i>	Live Production
- Architected a real-time stock analytics SaaS rendering live market heatmaps & interactive charts with sub-30ms latency. - Integrated OpenAI GPT-4 API to extract real-time financial news sentiment and automate personalized market summaries. - Implemented serverless event-driven background workflows using Inngest for asynchronous cron market data fetching.	
Noble’s Bid – Real-Time MERN Auction Platform <i>React.js, Node.js, Express, MongoDB, Socket.io</i>	Live Production
- Engineered a low-latency WebSocket live bidding engine handling 500+ active auctions with real-time state synchronization. - Implemented JWT authentication, role-based access control (RBAC), and atomic MongoDB transaction locks to eliminate race conditions.	
AI Video Testimonial SaaS Platform <i>Next.js, Node.js, Express, Cloudinary, AI Sentiment</i>	Live System
- Built a cloud-native SaaS for automated video feedback collection, video storage, and AI-driven sentiment analysis. - Developed automated video processing pipelines to streamline customer feedback collection into actionable marketing assets.	
GearGuard – Enterprise Maintenance Scheduler <i>React.js, Node.js, Express, MongoDB, Tailwind CSS</i>	Full Stack
- Developed an enterprise maintenance system with real-time asset tracking, automated technician assignments, and Kanban scheduling. - Reduced maintenance ticket resolution time by 40% using intuitive drag-and-drop workflows and analytics dashboards.	
AI Career Coach & Resume Scanner <i>React.js, Node.js, Express, OpenAI API, Tailwind CSS</i>	AI Application
- Built an AI career platform analyzing resume ATS match accuracy (94%+ rating) across 1,200+ generated user profiles. - Designed automated workflows generating targeted cover letters & customized career path roadmaps.	
FocusFuze – Open-Source Workspace Contribution <i>React.js, Node.js, Express, MongoDB</i>	Open Source
- Merged 6 upstream commits into open-source FocusFuze MERN codebase, optimizing note management UI and user flow. - Built tag-based note searching and category filter pipelines, reducing search lookup latency to sub-10ms.	

EDUCATION

Bachelor of Technology (B.Tech) in Computer Engineering — Rai University, Ahmedabad	CGPA: 8.70 / 10.0 (2024 – 2028)
Higher Secondary Education (12th Science Stream) — GSEB	Percentage: 70.0% (2024)
Secondary School Certificate (10th SSC) — GSEB	Percentage: 82.0% (2022)

CERTIFICATIONS & ACHIEVEMENTS

- HackerRank Skills Certifications:** Problem Solving (Intermediate), JavaScript, Node.js, React.js.
- Inspire Award National Level Qualifier:** Smart Car Wiper IoT Hardware Prototype (Arduino Uno, Servo Motor Control).
- Infosys Springboard Certification:** Full-Stack Web Development & Cloud Architecture.
